PROFESSIONAL SUMMARY

BCA graduate currently pursuing a Data Science course with a strong interest in the IT field. Has basic knowledge of programming and data concepts through academic learning and practical experience. Looking to start a career in the IT industry where problem-solving skills and analytical thinking can be used, while continuing to learn and grow professionally..

SKILLS

- Programming Language: Python, SQL
- Libraries : Pandas, NumPy, Matplotlib, Seaborn
- Tools : Power BI, Excel, PowerPoint, MySQL
- Platforms : Jupyter Notebook, Visual Studio Code

EDUCATION

- **Bachelor of Computer Application**
  St Philomena college Puttur, Mangalore University 07/2022 – 06/2025
  CGPA: 7.88/10.0

ACADEMIC PROJECTS

Cyber Cafe Management System 02/2025 – 06/2025

- Technologies Used: PHP, MySQL, HTML, CSS, JavaScript, XAMPP, Apache Web Server, Visual Studio Code
- Developed a web-based Cyber Cafe Management System to efficiently monitor and manage user sessions, service charges, and system availability in real-time**.**
- Implemented user login tracking, automated session time calculation, and billing, reducing manual log entry and improving overall operational accuracy by over 60%.

House Price Prediction System 10/2025 – 11/2025

- Technologies Used: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook
- Developed a machine learning model to predict house prices based on factors such as location, area, number of bedrooms, and other property features.
- Performed data cleaning, exploratory data analysis (EDA), and visualization to understand patterns and relationships in the dataset.
- Implemented regression algorithms to build and evaluate the prediction model, improving accuracy through data preprocessing and feature selection techniques

CERTIFICATION /ACHIVEMENTS

- Basics of Python from Infosys Springboard
- Cyber Job Simulation By Deloitte
- Data Analytics Job Simulation By Deloitte
